Welcome to ITIS, the Integrated Taxonomic Information System! Here you will find authoritative taxonomic information on plants, animals, fungi, and microbes of North America and the world. We are a partnership of U.S., Canadian, and Mexican agencies (ITIS-North America); other organizations; and taxonomic specialists. ITIS is also a partner of Species 2000 and the Global Biodiversity Information Facility (GBIF).

Publications Library[Access Newsletter](#)[Fact Sheets](#)[Papers & Proceedings](#)[Planning and Management Documents](#)**NBII Publications Library**

The NBII Program produces a variety of publications each year, including fact sheets about our Program, nodes, projects, and partners; presentations made at meetings and conferences; white papers and proceedings from workshops; program management documents; and our quarterly newsletter, *Access*. In addition, we are proud to co-sponsor the new, open-access eJournal *Sustainability: Science, Practice, and Policy*, with our partner, CSA.

Introducing a New, Open Access e-Journal Dedicated to Sustainability Issues

Sustainability: Science, Practice, & Policy is a new peer-reviewed, open access journal that provides a platform for the dissemination of new practices and for dialogue emerging out of the field of sustainability. The e-Journal fills a gap in the literature by establishing a forum for cross-disciplinary discussion of empirical and social sciences, practices, and policies related to sustainability. Sustainability will facilitate communication among scientists, practitioners, and policy makers who are investigating and shaping nature-society interactions and working towards sustainable solutions.

Co-published by the NBII and CSA, a worldwide information company specializing in publishing and distributing bibliographic and full-text databases and journals in the natural sciences, the e-Journal's primary mission is the dissemination of information on sustainability science issues in support of a greater global exchange of knowledge. The e-Journal is available free to all to read, download, copy, and reproduce for any scientific purposes

We invite you to [visit the *Sustainability: Science, Practice, & Policy* Web site](#) to access current and past issues.

Here's a sneak peak at our forthcoming Fall 2006 issue; articles already available are linked below:

- The roots of sustainability science: a tribute to Gilbert F. White (Maurie J. Cohen, New Jersey Institute of Technology, USA)
- [Growing interest in carbon capture and storage \(CCS\) for climate change mitigation](#) (Jennie C. Stevens, Clark University, USA)
- [Sustainability and resilience: toward a systems approach](#) (Joseph Fiksel, Ohio State University, USA)
- [Sustainability, well being, and environmental protection:](#)

perspectives and recommendations from an Environmental Protection Agency forum (Dinah A. Koehler and Alan D. Hecht (Environmental Protection Agency, USA)

- Human response to environmental decline at the forest frontier (Keith Alger, Conservation International, USA)

- Expanding protected areas and incorporating human resource use: a study of 15 forest parks in Ecuador and Peru (Lisa Naughton-Treves, Nora Alvarez-BerrÃfios, Katrina Brandon, Aaron Bruher, Margaret Buck Holland, Carlos Ponce, Malki Saenz, Luis Suarez, & Adrian Treves, University of Wisconsin-Madison, USA)

- Deforestation, malaria, and poverty: a call for transdisciplinary research to support the design of cross-sectoral policies.

(Subhrendu Pattanayak, Katherine Dickinson, Catherine Corey, Brian Murray, Erin Sills, & Randall Kramer, RTI International, USA)

- Challenges for sustainability in cultures where regard for the future may not be present (M. James C. Crabbe, University of Bedfordshire, UK)

The NBII Program is administered by the Biological Informatics Office of the U.S. Geological Survey
